Introducing you to companies

We can match you to your ideal employer and will take into account not only the job role and your skill fit, but also the culture within that organisation and the best possible fit for you within that work environment.

Our approach is to interview candidates initially over the phone and then arrange a face to face meeting where a more detailed interview will be conducted. We will then select appropriate positions to put your forward for.

Preparing for interview

We will coach you through how to best sell yourself in your interview, how to answer questions professionally and how to identify what the interviewer will be looking for.

Some interviews may require a presentation to be given or a practical test of your salon skills, preparing for these is the key to success and we will be there to guide and advise you every step of the way.

Receiving an Offer of Employment

Indigo are here to help untangle some of the complexities of offers of employment. We will help you understand some of the legal jargon involved in employment contracts and advise what your next step should be in terms of how to accept the offer and the options available to you.

If an offer of employment is not made, again Indigo will provide feedback to you so we can together build on the learnings to ensure you are prepared for your next interview and have built on the advise / learnings from previous interviews.

Follow Up

Our job is not complete until you are settled within your employment. If you have any concerns within the first 3 months we will be on the phone or available to meet you to talk through any issues you may have. Our service does not end until you are happy in your new role.
